

BUY 1 PLANT GET 1 FREE for your school

Plant List & Order Form 2017

Name: Class or Group:

School:

For every Our Native Garden plant you buy from the list below, your school gets one FREE plant of their choice from our full plant range. The school will pick up their plants from the nursery when they are ready to plant them.

- Support your school ecosystem garden or revegetation project
- Support your environment with native plants that bring native creatures
- Support your local community nursery, Our Native Garden, that is dedicated to education, the community and the environment.

HELPING YOUR ENVIRONMENT AND YOUR COMMUNITY

**Plants are in standard forestry tubes. Price is \$3.50 each including GST.

	PLANT NAME	SPECIALFEATURES	QTY
GRASS			
	Kangaroo Grass <i>Themeda triandra</i>	Origin: Dry/ Woodland/ Forest. Soft tussock to 50 cm height. Unusual chaffy seed heads. Bronze hues in winter. Food and shelter for many creatures especially Xenica and Brown Butterflies. Use as ornamental, mow-able lawn or grazing.	
GROUND COVER (UNDER 1MT)			
	Chocolate Lily <i>Arthropodium strictus</i>	Origin: Dry/ Woodland/ Forest Slender lily to about 0.5m height. Open, grassy areas. Fragrant flowers (when crushed smell like chocolate), 15mm wide, between Oct and Dec. Spreads well. Able to survive dry conditions. Bush Food: Tubers roasted for eating.	
SHRUBS			
	Kangaroo Apple <i>Solanum laciniatum</i>	Origin: Woodland Large shrub 4m x 5m. Bush Food: Very ripe fruit is edible. Hardy, fast growing. Able to survive dry conditions.	
TREES			
	Blackwood <i>Acacia melanoxylon</i>	Origin: Woodland/ Forest/ Upper Forest Height to 30 m. Flowers between Aug and Oct. Fire retardant. Bark infusion used for rheumatism. Leaves feed caterpillars of Blue Jewel and Imperial Blue Butterflies.	

	Long-leaf Box or Bundy <i>Eucalyptus goniocalyx</i>	Origin: Dry Height to 15m. Rough bark. Makes hollows. Frost and drought hardy.		
CREEKLINE/ WATERWAY				
	Hillside Sedge <i>Carex incomitata</i>	Origin: Woodland/ Forest Height to 90cm tall tussock. Great soil stabiliser & habitat for frogs, and birds.
